ABOUT US

SINDHURI MICROTECH PRIVATE LIMITED

At Sindhuri Microtech Private Limited, the focus has always been clear delivering practical, high-performance crop solutions that create real impact in the field.

As a part of the Sindhuri Group, the company is dedicated to the development and supply of advanced micronutrients, biostimulants, and water soluble fertilizers designed for modern agriculture. Every product is built on a strong foundation of field understanding, scientific formulation, and performance consistency.

Today's farming demands efficiency, precision, and reliability. With this understanding, Sindhuri Microtech develops solutions that support strong root development, efficient nutrient uptake, enhanced plant immunity, and higher yield outcomes.

Continuous interaction with farmers and dealers across regions allows us to refine our products to suit diverse crop conditions. The goal is not just to supply inputs, but to ensure measurable results, long-term trust, and sustainable growth for every partner associated with us.

Sindhuri Microtech stands committed to quality, innovation, and delivering value where it matters most in the farmer's field.

Managing Director
S.B.Saidulu

OUR MISSION

To empower farmers with innovative and reliable crop solutions that drive higher productivity, improved crop quality, and sustainable agricultural growth.

MICRONUTRIENT & PROTECTION SYSTEM

From Stress to Strength —
Complete Crop Care

THE PROBLEM:

CROP UNDER ATTACK & STRESS

FUNGAL
INFECTIONS

PEST
ATTACKS

VIRAL
STRESS

NUTRIENT
DEFICIENCIES

FUNGI GUARD

Blocks &
controls
fungal diseases

SURAKSHA

Controls pests
& harmful
insects

ANTI VIRUS

Protects from
viruses & pathogens

SANJEEVNI

Promotes
root growth
boosts growth

NEEM OIL

Organic pest deterrent,
boosts immunity

ALL STAR

Overall plant defense,
maximizes performance

SANJEEVNI +

Advanced growth & flowering,
fruiting promoter

THE SOLUTION:

HEALTHY, PROTECTED & PRODUCTIVE CROP

- ✓ Strong Plant Immunity
- ✓ Effective Pest & Disease Protection
- ✓ Improved Nutrient Uptake
- ✓ Higher Yield & Crop Quality

SYSTEM IN ACTION:

PROTECT

Shields from
fungi, pests &
viruses

NOURISH

Supplied
micronutrients

STRENGTHEN

builds plant
plant vigor
& immunity

YIELD

Delivers higher,
quality
produce

S-MAX

Balanced Micronutrient Support

S-MAX is a chelated micronutrient formulation that supports plant growth and nutrient balance. It improves crop performance and yield.

- ✓ **Uses:**
Corrects micronutrient deficiencies.
- ✓ **Recommended Usage:** Apply during growth stages.
Dosage: Foliar: 250 gm / acre
Drip: 1 kg / acre

Pack Size: 100 gm | 250 gm | 500 gm | 1 kg

DHAMAKA GOLD

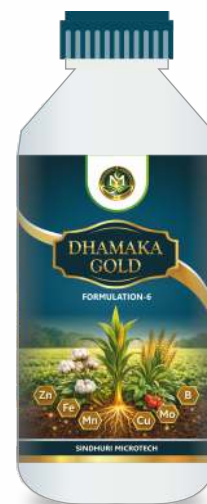

Powerful Nutrient Boost

DHAMAKA GOLD-F6 is a liquid micronutrient formulation designed to enhance nutrient availability and plant growth.

- ✓ **Uses:**
Improves nutrient uptake and yield.
- ✓ **Recommended Usage:** Apply during active growth stage.

Dosage: Foliar: 500 ml / acre or 2.5 – 5 ml / liter

Pack Size: 250 ml | 500 ml | 1 liter | 5 liters

NUTRIMIX

Soil Nutrition for Better Yield

NUTRIMIX-F7 is a granular micronutrient formulation designed for soil application to improve nutrient availability.

- ✓ **Uses:**
Improves soil fertility and root growth.
- ✓ **Recommended Usage:** Apply through soil.
Dosage: Soil: 5 – 10 kg / acre
Drip: 10 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

S-BORON

Essential Boron for Better Flowering

S-BORON is a boron micronutrient fertilizer designed to support reproductive growth. It improves flower formation and fruit development.

- ✓ **Treatment:**
Improves flowering and fruit setting.
- ✓ **Recommended Usage:** Apply during flowering stage.
Dosage: Foliar: 250 gm / acre
Drip: 1 kg / acre 1.5–2.5 gm / liter

Pack Size: 100 gm | 250 gm | 500 gm | 1 kg

S-ZINC+

Chelated Zinc for Strong Growth

S-ZINC+ is a chelated zinc formulation designed for quick absorption. It corrects zinc deficiency and improves plant growth.

- ✓ **Treatment:**
Corrects zinc deficiency and improves vigor.
- ✓ **Recommended Usage:** Apply during vegetative stage.
Dosage: Foliar: 50 gm / acre or 0.5 – 1.5 gm / liter

Pack Size: 100 gm | 250 gm | 500 gm | 1 kg

MAG SUL

Greener Leaves. Better Photosynthesis

MAGSAL is a magnesium sulphate formulation that improves chlorophyll formation and plant metabolism.

- ✓ **Treatment:**
Corrects magnesium deficiency.
- ✓ **Recommended Usage:** Apply during vegetative stage.
Dosage: Foliar: 50 gm / acre or 0.25 – 0.5 gm / liter

Pack Size: 100 gm | 250 gm | 500 gm | 1 kg

ADVANCED BIO STIMULANT SOLUTIONS

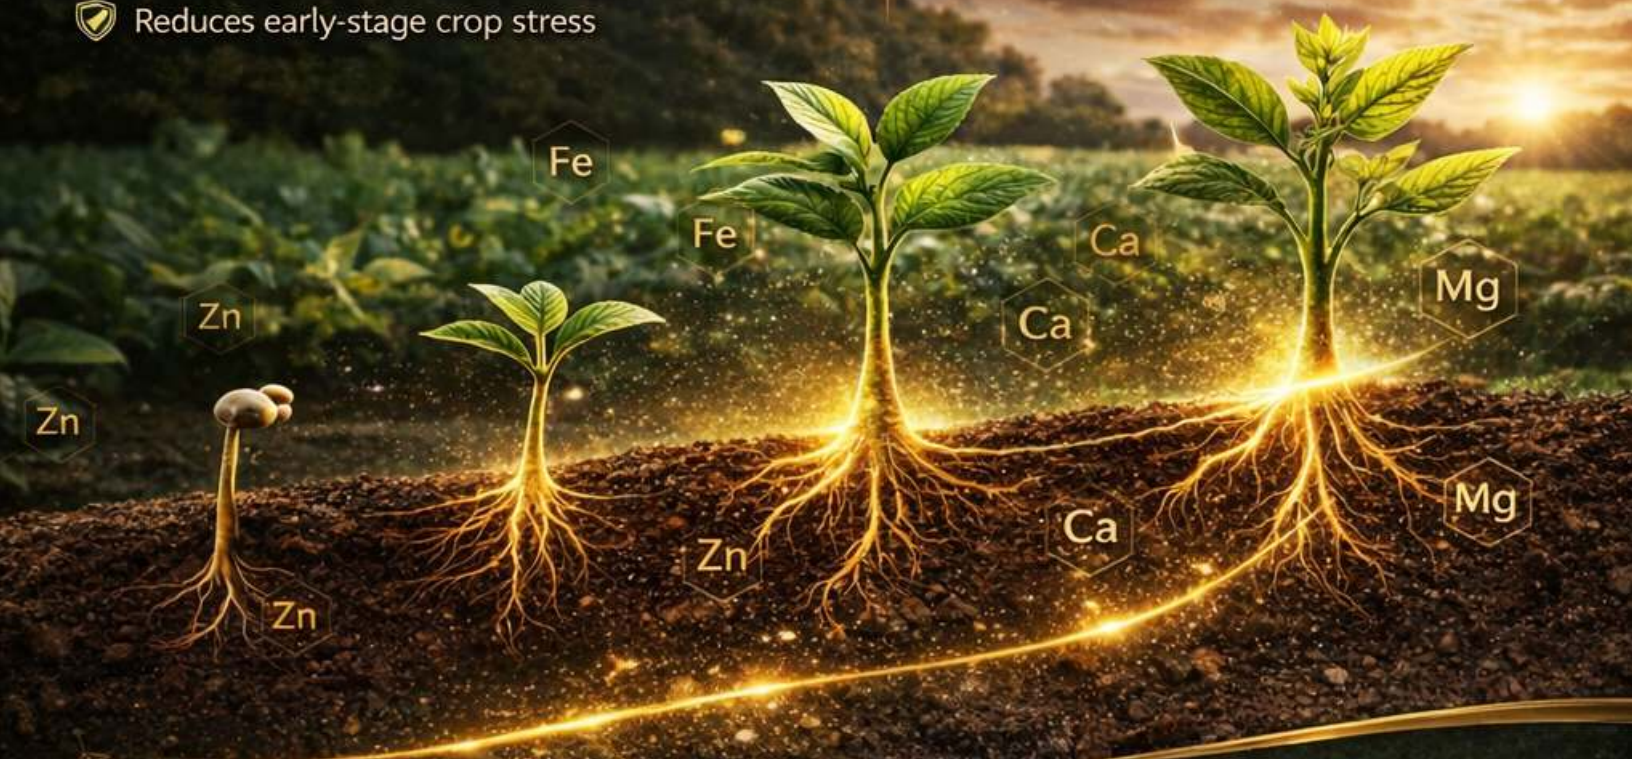

Early Growth • Root Activation • Stress Resistance

Key Benefits:

- Enhances early root establishment
- Improves nutrient absorption efficiency
- Promotes uniform crop growth
- Supports flowering & fruit initiation
- Reduces early-stage crop stress

Why Bio Stimulants?

Bio stimulants play a crucial role during the early and budding stages of crop growth by improving root strength, nutrient uptake, and plant metabolism. They help plants withstand stress and ensure uniform development across the field.

**POWERING ROOT
STRENGTH FROM DAY ONE**

Ideal Growth Stages:

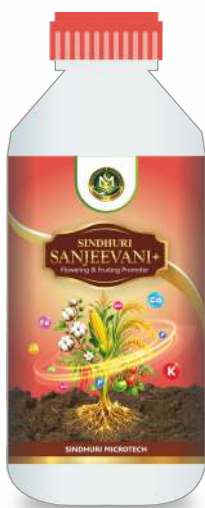

Seedling
Root establishment

Vegetative
Vigorous growth

Budding
Flower initiation

SANJEEVANI+

For Maximum Flowering & Higher Yield

SINDHURI SANJEEVANI+ is an advanced liquid formulation designed to enhance flowering and fruiting in crops. It improves nutrient movement and plant metabolism, ensuring uniform flowering and better fruit setting while reducing flower drop.

Uses:

Improves flowering, enhances fruit setting, reduces flower drop.

Recommended Usage:

Apply during pre-flowering, flowering, and fruiting stages.

Dosage: Foliar: 250 ml / acre

Drip: 1 liter / acre

Pack Size: 100 ml | 250 ml | 500 ml | 1 liter

SAFARI GOLD

Strong Protection Against Sucking Pests

SAFARI GOLD is a high-performance plant protection formulation designed to effectively control major sucking pests in crops. It helps reduce pest damage while maintaining plant vigor and ensuring uninterrupted crop growth. The formulation supports plant recovery and improves overall crop health under field conditions.

Treatment:

Provides effective control against aphids, thrips, whiteflies, and jassids.

Recommended Usage:

Apply during pest incidence or early infestation stages.

Dosage: Foliar: 250 ml / acre or 1.5 – 2.5 ml / liter

Pack Size: 100 ml | 250 ml | 500 ml | 1 liter

SURAKSHA

Complete Protection from Sucking Pests

SINDHURI SURAKSHA is a crop protection formulation designed to control major sucking pests. It protects crops from damage caused by thrips, aphids, whiteflies, and jassids, ensuring healthy plant growth and better field performance.

Treatment:

Controls thrips, aphids, whiteflies, and jassids.

Recommended Usage:

Apply at early pest incidence or preventive stage.

Dosage: Foliar: 125 ml / acre or 1.0 – 2.0 ml / liter

Pack Size: 100 ml | 250 ml | 500 ml | 1 liter

SINDHURI
Microtech Pvt. Ltd.

BIO STIMULANT

ANTI VIRUS

Strong Defense Against Crop Stress

SINDHURI ANTI VIRUS is a plant defense formulation designed to improve resistance against viral, bacterial, and fungal stress. It enhances plant immunity and supports recovery under adverse conditions.

Treatment:

Protects against viral, bacterial, and fungal stress.

Recommended Usage: Apply during stress or infection conditions.

Dosage: Foliar: 250 ml / acre or 1.5 – 2.5 ml / liter

Pack Size: 100 ml | 250 ml | 500 ml | 1 liter

FUNGI GUARD

Reliable Protection Against Fungal Diseases

SINDHURI FUNGI GUARD is a protective formulation designed to manage fungal infections in crops. It strengthens plant defense systems and helps prevent disease spread, supporting healthy crop growth.

Treatment:

Controls leaf spot, mildew, and root rot diseases.

Recommended Usage: Apply preventively or at early disease stage.

Dosage: Foliar: 100 gm / acre 0.5 – 1 gm / liter

Pack Size: 100 gm | 250 gm | 500 gm | 1 kg

SINDHURI GOLD

Advanced Protection with Enhanced Crop Performance

SINDHURI GOLD is an advanced crop protection formulation developed to deliver effective pest control along with improved plant growth. It enhances crop tolerance against pest stress while promoting better nutrient utilization, leading to stronger plants and improved productivity.

Treatment:

Controls sucking pests and supports healthy crop development under stress conditions.

Recommended Usage: Apply at early pest appearance or as preventive spray during crop growth stages.

Dosage: Foliar: 250 ml / acre or 1.5 – 2.5 ml / liter

Pack Size: 100 ml | 250 ml | 500 ml | 1 liter

SINDHURI
Microtech Pvt. Ltd.

BIO STIMULANT

SANJEEVANI

Stronger Roots. Better Start.

SINDHURI SANJEEVINI is a root growth formulation designed for early crop stages. It promotes strong root development, improves nutrient uptake, and supports better crop establishment. It ensures uniform growth and stronger plant foundation.

Uses:

Promotes root growth and improves early plant development.

Recommended Usage: Apply during early vegetative stage.

Dosage: Foliar: 250 gm / acre or 1.5 – 2.5 gm / liter

Pack Size: 100 gm | 250 gm | 500 gm | 1 kg

NEEM GOLD

Natural Protection with Neem Power

NEEMGOLD is a neem-based formulation derived from natural extracts. It provides eco-friendly pest protection and supports plant health.

Uses:

Controls sucking pests and reduces infestation.

Recommended Usage: Apply preventively or at pest incidence.

Dosage: Foliar: 500 ml / acre

Drip: 1 liter / acre or 2.5 – 5.0 ml / liter

Pack Size: 250 ml | 500 ml | 1 liter | 5 liters

ALL STAR

Natural Growth Booster

ALL STAR is a premium seaweed extract formulation rich in natural bioactive compounds. It enhances plant growth, improves nutrient uptake, and increases stress tolerance.

Uses:

Improves plant vigor and stress tolerance.

Recommended Usage: Apply during all growth stages.

Dosage: Soil: 4 – 8 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

FATERRA

Improves Soil Strength & Crop Growth

FATERRA is a soil conditioning formulation designed to improve soil health and nutrient availability. It enhances root activity and supports better crop development.

Uses:

Improves soil fertility and root growth.

Recommended Usage: Apply through soil.

Dosage: Soil: 5 – 10 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

SPREADER

Better Coverage. Better Results.

SPREADER is an advanced spray adjuvant designed to improve spreading, sticking, and penetration of agrochemicals. It enhances spray efficiency and reduces wastage.

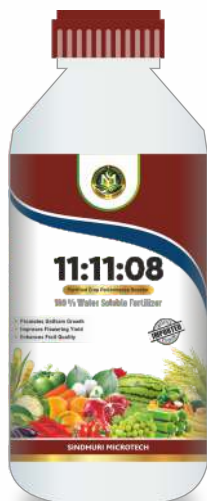

Uses:

Improves spray coverage and input effectiveness.

Recommended Usage: Use along with agro inputs.

Dosage: Foliar: 50 ml / acre or 0.25 – 0.5 ml / liter

Pack Size: 100 ml | 250 ml | 500 ml | 1 liter

11:11:08

Balanced Growth with Added Strength

SINDHURI 11:11:08 is a balanced NPK fertilizer enriched with sulphur and boron. It supports uniform growth and improves nutrient efficiency.

Uses:

Improves growth, flowering, and yield.

Recommended Usage: Apply during vegetative to flowering stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 500 ml | 1 liter

WATER SOLUBLE NUTRITION SYSTEM

Engineered for Instant Uptake • Designed for Maximum Output

THE PROBLEM: INEFFICIENT NUTRITION

- ▶ Slow nutrient availability
- ▶ High nutrient loss
- ▶ Uneven crop growth
- ▶ Delayed plant response

THE RESULT: INSTANT PERFORMANCE

- ▶ Immediate nutrient absorption
- ▶ Uniform crop growth
- ▶ Faster plant response
- ▶ Higher yield potential

SYSTEM IN ACTION:

SINDHURI
Microtech Pvt. Ltd.

WATER SOLUBLES

19:19:19

Complete Balanced Nutrition

19:19:19 is a balanced NPK fertilizer providing equal nutrients for uniform crop growth.

Uses:

Supports overall plant growth.

Recommended Usage: Apply during vegetative stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

13:00:45

High Potassium Yield Booster

13:00:45 a high potassium fertilizer designed to improve flowering and fruit development.

Uses:

Enhances flowering and fruit quality.

Recommended Usage: Apply during fruiting stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

12:61:00

High Phosphorus Root Strength

12:61:00 a high phosphorus fertilizer designed for strong root development and early crop establishment.

Uses:

Improves root growth and plant strength.

Recommended Usage: Apply during early stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

SINDHURI
Microtech Pvt. Ltd.

WATER SOLUBLES

13:40:13

High Strength Growth Booster

13:40:13 is a high concentration fertilizer designed to support rapid plant growth and strong development.

Uses:

Improves plant vigor and growth.

Recommended Usage: Apply during vegetative stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

00:00:50

Pure Potassium for Quality Yield

00:00:50 is a potassium-based fertilizer designed to improve fruit quality and crop strength.

Uses:

Improves crop quality and strength.

Recommended Usage: Apply during fruiting stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

00:52:34

Root & Flower Booster

00:52:34 is a high phosphorus fertilizer that promotes root development and flowering.

Uses:

Improves root growth and flowering.

Recommended Usage: Apply during early stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

SINDHURI
Microtech Pvt. Ltd.

WATER SOLUBLES

28:28:00

High Strength Growth Booster

28:28:00 is a high concentration fertilizer designed to support rapid plant growth and strong development.

Uses:

Improves plant vigor and growth.

Recommended Usage: Apply during vegetative stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

CALCIUM NITRATE

Calcium Strength for Better Quality

CALCIUM NITRATE is a calcium nitrate fertilizer supplying essential calcium and nitrogen for plant growth and crop quality.

Uses:

Prevents calcium deficiency and improves fruit quality.

Recommended Usage: Apply during fruit development stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg

SINDHURI MG

Magnesium Boost for Green Growth

SINDHURI MG is a magnesium-based fertilizer designed to improve chlorophyll formation and plant metabolism.

Uses:

Improves leaf greening and photosynthesis.

Recommended Usage: Apply during vegetative stage.

Dosage: Foliar: 5 gm / liter

Drip: 3 – 5 kg / acre

Pack Size: 1 kg | 5 kg | 10 kg | 25 kg
